

Integrate Ayden with Book4time

Your guests are relaxed, why are you stressed?
Book4Time integrates seamlessly with Adyen
 and together we can help you efficiently manage your business to help you create the ultimate guest experience, stress-free.

Why Integrate

Adyen is a unique payment solution, as they have been built from the ground up for the internet age. Their unique approach to managing pinpad devices in the cloud allows for simple, fast setup, and also allows quick rollout of new payment technologies worldwide. Offering the first true worldwide acquirer network, Adyen can help to grow your business into new locations, and be ready to take payments in days. Partnered with Book4Time, Adyen offers the ability to securely store cards on file, process multiple different payment methods, and includes Google Pay and Apple Pay support.

Key Features

- ✓ Process card present and card not present transactions
- ✓ Securely store cards on file in the Book-4Time system
- ✓ Simplify EOD balancing by staff (Only valid payments are stored)
- ✓ Offer the latest payment technologies, with minimal work

How we can help

24/7 Support

We provide hands-on implementation training, live phone and email support, and unlimited refresher training for your staff.

Understand Your Customer

Want a deeper understanding of guest buying habits? Our CRM gives you a clear picture of retail purchases, buying trends, and customer demographics – across all locations, or independently.

Endless Integrations

Book4Time integrates with over 50+ Hotel Systems, Loyalty Program Management, Special Offers & Discounts and more!

About Book4Time
